Prediction of South African Presidents from their SONA Speeches

Tanweer Nujjoo

Summary of motivation and outcome. Start with context, task and object, finish with findings and conclusion. This is written last.

Table of contents

Introduction

This is the introduction. To cover: what is `SONA` and what is its purpose? What was the assignment task? What was the motivation?

Materials and Methods

Summary of data-set and data cleaning methods used. How the data was read in, parsed.
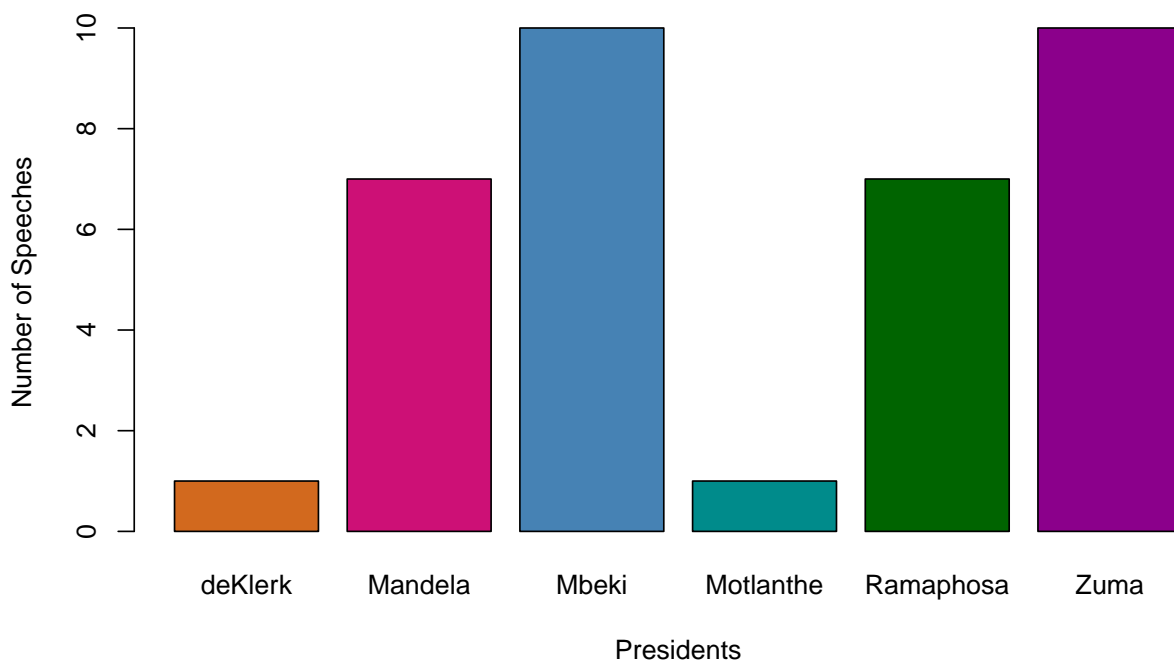

Brief Overview of SONA dataset

Figure 1...

Figure 1: Number of speeches made by each president during the SONA events between 1994 to 2023.

### Data Pre-processing

Data Exploration

Figure 2...

Figure 2: Top 20 words used by each presidents. **A** relates to Mandela's words, **B** relates to Mbeki's words, **C** relates to Zuma's words, and **D** relates to Ramaphosa's words.
